PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building enterprise applications across React/TypeScript Micro-Frontends and Fastify-based backend services. Skilled in shared UI architecture, REST API integration, authorization, and automated testing. Currently expanding mobile development skills with Flutter and Dart.

WORK EXPERIENCE

Full-Stack Developer
TCC TECHNOLOGY LIMITED | Jun 2025 – Present

• Developed and maintained enterprise applications across independently deployed React/TypeScript Micro-Frontends using Module Federation.
• Built a shared npm UI component library to promote reuse and consistent interfaces across application modules.
• Implemented complex screens and reusable asynchronous selects with Zustand and TanStack Query, including caching, pagination, and error handling.
• Integrated internal and external REST APIs and collaborated across frontend and Fastify-based backend microservices.
• Implemented backend business logic with Node.js, Fastify, and Prisma, including task-level access control by user and group assignment.
• Improved authentication flows, including session restoration and route access during system maintenance.
• Added unit tests for authorization and database-query edge cases, including tenant isolation and inactive groups.
• Supported debugging, refactoring, code reviews, and Agile Scrum delivery; used AI-assisted tooling to streamline development.

TECHNICAL SKILLS & ARCHITECTURE

FRONTEND: REACT, TYPESCRIPT, TAILWIND CSS, ZUSTAND, TANSTACK QUERY

BACKEND: NODE.JS, FASTIFY, PRISMA, REST APIS

DATABASE & MOBILE: POSTGRESQL, MYSQL | FLUTTER, DART (LEARNING)

DEVOPS & TOOLS: GIT, DOCKER, NGINX, ARGO CD, POSTMAN, FIGMA

ARCHITECTURE & PRACTICES: MODULE FEDERATION, MICRO-FRONTENDS, SHARED UI LIBRARIES, UNIT TESTING, AGILE SCRUM
